### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This action is in response to applicant's application filed on 10 March 2004. **Claims 1-6** are now pending in the present application.

### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-3, drawn to a method, system, and computer program product within the infrastructure of a mobile telephone network for storing and forwarding the content of a conference call, classified in class 455, subclass 416.
  - II. Claims 4-6, drawn to a method, system, and computer program product within the infrastructure of a mobile telephone device for storing and forwarding the content of a conference call, classified in class 455, subclass 550.1.
3. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions have different modes of operation. The Invention I is directed to a method, system, and computer program product within the infrastructure of a mobile telephone network for storing and forwarding the content of a conference call and Invention II is directed to a method, system, and computer program product within the infrastructure of a mobile telephone device for storing and forwarding the content of a conference call.
4. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the

Art Unit: 2617

inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

***Information Disclosure Statement***

6. The information disclosure statement (IDS) submitted on

- a. 24 May 2005

is in compliance with the provisions of 37 CFR 1.97 and is being considered by the examiner.

Art Unit: 2617
